Radiodetection RD8200 Precision Locator: All R7200 features plus:

- ◉ **Remote Control of Transmitter**: Change frequency and output from **1400 feet**.
- ◉ **Accurate GPS within 24" using free "RD Map" and Geode GPS**
- ◉ **5 Individual Power Harmonics**: Identify separate cables better
- ◉ **New 4 Khz Frequency**
- ◉ **Choose the Best Frequency for the Application**: 18 locator frequencies, 4 sonde frequencies, 5 passive frequencies
- ◉ **30% Stronger Signal**: Single peak antenna for stronger signal
- ◉ Null antenna: Simple to pinpoint even at deep depths. Fast and easy with different tones on right and left. Indicates accuracy when compared to peak.
- ◉ **Simultaneous power and radio signal detection**
- ◉ **Current Direction**: New 4K CD frequency works in more places and identifies when locating the same utility that the transmitter is connected to with better accuracy than current measurement.

Radiodetection RD7200 and R8200 Features:

- ◉ New speaker in an easier to hear location with louder and higher frequencies.
- ◉ **Vibrating handle warns of swing**, nearby power and overload.
- ◉ **Guidance Mode**: Intelligently combining 5 signals for the easiest, fastest and most accuracy
- ◉ Precision Antennas: Ferrite core antennas diamond ground to 0.02", aligned to 0.1 degrees and secured for long term precision.
- ◉ Withstands water jets and one meter drop to concrete, IP65
- ◉ **High Sensitivity Power Frequencies**: Detects 16 power frequencies at once for extremely sensitive detection.
- ◉ Verify Accuracy: Simultaneously compare the peak and true null or guidance antennas to determine accuracy without assuming.
- ◉ CPS frequency: Finds cathodically protected water and gas pipes
- ◉ Li-ion battery: 35 hour life, lighter, better low temperature life, no battery corrosion or connection problems, greener choice (optional)
- ◉ Live power cable warning
- ◉ Frequency on & off selection for faster and simpler use
- ◉ **3 Year Warranty**
- ◉ **Peak Mode + Guidance Arrows: Combines the two most accurate signals in an easy to follow display**
- ◉ **Displays Utility Direction**: Large center line stays parallel to the utility
- ◉ Free onsite firmware updates
- ◉ **On-site training included with all locators**
- ◉ **Balanced**: Hangs vertically from the handle improving accuracy and preventing wrist strain.
- ◉ **Utility Identification**: **Automatically** displays signal strength to identify the utility
- ◉ **Right & Left Arrows**
- ◉ **Automatic TruDepth:** **Automatically** displays the depth only when aligned and near the pipe preventing display of incorrect depths.
- ◉ **Onsite Calibration Check**: Check & document calibration from your computer.
- ◉ **Dynamic Overload Protection**: Prevents signal overload in areas with strong signals.
- ◉ **Cable Fault Location**: Forward & reverse arrows to the cable ground fault from all directions
- ◉ Enhanced Checking: Comprehensive self test with locate circuit test
- ◉ Usage logging: Automatically stores locate parameters every second for documentation

Radiodetection Marker Locators   All RD7100 and RD8100 features plus:

◉ **Locate the utility and markers simultaneously**

◉ **Automatically selects last marker frequency when antenna is flipped down**

◉ **20 feet** maximum EMS marker depth, **4.9 feet marker ball maximum depth**

◉ **9 different marker types**

Radiodetection Transmitters

- 90 volt output for stronger signals, 10 watts direct and 1 watt induction
- **Withstands water jets** - IP65
- 3 year warranty with registration
- Remotely control transmitter from 1400 feet (TX-10B)
- Accessory storage tray in base
- **Current Direction** accurately identifies the same utility (Tx-10)
- Select from 32 direct, 8 induction, 4 CD identification frequencies
- Large, high contrast, backlight LCD display with clear information
- Rechargeable **Li-ion battery with quick change battery door** optional
- Signal strength displayed and tone

Radiodetection Locator Accessories:

⊙ Longer lasting leads
⊙ Li-ion batteries for transmitters and receivers with quick change battery doors
⊙ Ground fault locating A-frame
⊙ Remote control transmitter switch directs signal to 4 different utilities
⊙ 3 Cases: Soft, light hard case, heavy duty hard case
⊙ Live cable connector applies signal to live power cables for better accuracy
⊙ Induction clamps: 2", 4", 5", 8.5", CD transmitter, receiver
⊙ Stethoscope antennas: CD, Small, Large, High Gain
⊙ Submersible antenna

Live Cable Connector

<u>Sondes</u>:

- Accurately locate pipes and conduits to 50 feet depth
- 9 choices: 0.25", 0.35", 0.5", 0.7", 0.9", 1.5", 2.5" dia.
- 3 frequencies: 512 hz, 8 Khz, 33 Khz

Sondes   Induction Clamps   Li-ion Battery   Stethoscope antennas   Cases

Juniper Geode GPS

- Blu-tooth to Android, Apple or Windows mobile device
- Map and locate with depth and other locate information
- Accuracy: 4" post processed, 68% < 11.8", 98% <23.8"
- Compact: 4.4" x 4.4" x 1.7"
- Submersible over 1 meter, IP68
- 10 hour rechargeable Li-ion battery
- Light: only 12.8 oz.

Radiodetection RD5100: Quick, easy, value priced

- Guidance Mode: Center the gap, left & right arrows, large line shows pipe direction, combines easy to follow tones (continuous left, silent center, pulsing right tone)
- 3 year warranty
- Value priced
- Withstands water jets
- Automatic depth, automatic utility identification, automatic gain

RD5100S: 3 camera / sonde frequencies, 4 optional frequencies

RD5100 H$_2$O: Easiest locator, 83 Khz, power, low cost, includes Li-ion batteries included

RD5100 H$_2$O+ Kit: Control the 10 watt transmitter from 1400 feet, 9 line & 3 sonde frequencies, current direction identifies same utility, power line warning

Radiodetection CAT4: Simple and Low Cost

- **Scan [power + radio + transmitter] frequencies together one step**
- Simple operation: Turns on automatically when picked up
- Swing warning available
- Value priced
- Automatic GPS and automatic usage logging available (optional)
- Frequencies: Power, radio, CPS, sondes, 3 frequencies
- Strike Alert: warns when near live power line
- Dual frequency signal boost
- Detachable loud speaker for noisy environments

TDR Cable Fault Locator Riser Bond 3300
- Stores screen cable data
- 12 miles range
- Intermittent fault detection
- Noise filters with 8 settings
- 0.01% reading, within 0.5 ft.
- Find shorts, opens, water damage, crimps and more.in ethernet, CATV, twisted pair phone, low voltage cables

TDR Cable Fault Locator Lexxi 1660
- 1% accuracy & 1% resolution
- 19,000' range
- Economical
- Find shorts, opens, water damage, crimps and more.in ethernet, CATV, twisted pair phone, low voltage cables

Jameson Rodders

- Leading quality rodders since 1980
- Swivel eyes, roller guides, swivel couplings, grapples, 12" & 24" stinger tips, splice repair kits

Model	Dia.	Lengths	Strength	Conduits
Easy Buddy	1/4"	300' - 400'	400 lbs	1"-2"
Good Buddy I, II, III	3/8"	300' - 600'	1000 lbs	2" - 4"
Big, Mega	1/2"	400' -1500'	800 lbs	> 4"

Schonstedt Metal Detectors

- 7 year warranty
- Weather resistant, IP54
- USA market leader since 1953
- Made in USA
- Find valve & manhole covers, metal pipes, well casings, septic tanks ...
- Not affected by aluminum, copper or brass.
- The GA-92 collapses to 15.5".

SCHONSTEDT

7 YEAR WARRANTY

GA-92   Maggie   Spot

RD312 Metal Detector

- Simple 2 button operation
- Advanced interference rejection with automatic sensitivity adjustment
- Depth:
  * 6" valve lids to 16" deep
  * Manhole covers to 25" deep
- Value priced
- Water proof search head
- Detects all metals

M130 Metal Detector

- Detects objects up to 36" deep
- Easily find valve lids and manhole covers
- 2.4 lbs., 38" long, search head 8" dia.
- Detects all metals

Rhino Utility Markers

Rhino

♦ **Tri-view posts: seen from all directions, pops back up even in cold weather**
♦ "HideOut" pop up tracer wire pedestal
♦ Posts: Triview, tracer wire posts, fiberglass, hybrid
♦ Surface markers for soil, curbs, streets, ...
♦ Signs: 10 year warranty,
♦ Hydrant "out of service" signs
♦ Mark sewer lateral connections,

Ground Penetrating Radar - RD1100 & RD1500

Radiodetection

- 3 frequency ranges
- GPS & Wi-Fi
- On-site map view
- Depth sections
- 3D data export
- Color touch screen
- Easy operation
- Low price
- Lightweight carbon fiber frame
- On screen utility markers

Sewerin Combiphon Plastic Pipe Locator

The Sewerin Stopper connects to a hydrant or other part of the water system and creates water pulses. The "Striker" taps on the pipe. The pulse and tapping interval and intensity are adjustable with the electronic controller. Track the pipe sounds with the A200, AC200, A150, A50, T10 or Stethophon water leak detectors.

Generator / Controller   Stopper   Striker

Plastic Water Service Locator

Connect to a hose bibb or other part of the water system to create safe, low intensity water pulses then locate the pipe by listening with a Sewerin or other leak detector.

- Low cost, simple, quick setup

Plastic Pipe Locator: RD500

Creates water pulses to track water pipes.
- Lowest cost water pulse generator
- Low power: irrigation
- Meduim power: water service
- High power 2" and larger
- Water pressure: 40-70 psi

3 intensities; three different versions for small, medium and large water pipes.

Ultratrac APL Plastic Pipe Locator

Ground sonar sends and receives sound waves to determine buried object locations including plastic water services, sewer laterals, septic tanks, gas pipes ...
- Works in clay soils that limit ground penetrating radar depth
- No connection to the pipe needed
- Easy guided operation

Jameson Locatable Rodders

- Locate conduits, storm drains, live water vices, sewer mains
- Push sondes, locate entire length, pull cable
- Fiberglass rod with copper wire center
- Jameson quality since 1954

JAMESON

mains and water ser-

Dia.	Lengths	Conduit
1/8"	100' - 200'	1/2" - 1"
3/16"	100' - 300'	1/2" - 4"
5/16"	300' - 800'	2" - 4"
7/16"	400' - 1500'	> 4"

Sewer Water Leak Detectors / Correlators

800-620-4773

Sewerin AC200 Water Leak Correlators / Leak Detector

Correlator + Leak Detector + Plastic Pipe Locator + Leak Survey

AC200 = Leak detector and correlator
A200 = Leak detector with pinpointing microphones
C200 = Correlator with transmitters & correlator microphones

- **GPS** transmitters and receiver to track leaks and survey locations
- **Replays & displays last 7 listening points** for comparison of leak sounds without delay between listening points
- Removes background noises from replay
- Peak suppression finds multiple leaks
- Easy sound velocity measurement
- **Submersible** wireless controller & microphones
- **Wireless microphones with testrod**
- Automatically scans frequencies and sets precision background noise filters
- **Color touch screen** with easy controls, 5.7"
- Hydrophones correlate better on hydrants with non-metallic pipes
- Extreme sound blocker limiter with 5 level settings
- **Thumb sensing mute switch with no moving parts**
- One connection outside the case charges everything
- WaterCom automatically transfers leak locations, sounds, data, reports
- Sewerin's best leak detector, the world's leading leak detector manufacturer
- Two year warranty
- **LED** microphones to light valves for faster better attachement
- **Wireless headphones**
- Correlation quality indicator

Sewerin A150 Water Leak Detector

- Sewerin's best A200 microphones, **wireless** headphones, case,
- Automatically scans & sets background noise filters
- Precise background noise filters: 6 lower, 6 upper
- Background power noise filter
- 16 hour rechargeable Li-ion battery
- 3 level extreme sound blocking
- Displays current and previous 2 sound levels
- Corded microphone testrod
- Neck strap and belt clip
- Compact: 4.5"x2.6"x4.5",
- Light: only 14 oz.

RJM Equipment Sales, Inc   www.rjmutilityequipment.com   www.rjmcompany.com   7

RJM
800-620-4773

Sewerin Water Leak Detectors

Sewerin A50 Water Leak Detector

- **Wireless** headphones or wired headphones
- Background noise filters, 6 lower & 6 upper
- Wind protected microphones
- Weather proof, rechargeable batteries
- Displays current & last 2 reading levels
- Extreme sound protection with 3 levels

Sewerin T10 Water Leak & Survey Tool

- Thumb sensor mute switch eliminates switch wear
- **Wireless** or wired headphones
- 8 background noise filters
- Maximum noise limiter
- Wind noise shields, rubber or foam

Sewerin Stethophon Leak Detector

- **Wireless** or wired headphones
- Displays current & **previous** readings
- 8 or 5 filter ranges, max noise limiter
- Simple operation & compact
- 46" rod & second microphone
- Built in and separate microphones
- Value priced

SEWERIN
Technologies for leak detection.

Water Leak Loggers: Sewerin Sepem 115

- Detect leaks up to 1600 feet distance, highest sensitivity loggers
- **Lowest labor and equipment cost** to survey water systems
- Automatically listens when other noises are minimum and indicates leaks
- Easy data collection with dedicated master logger

MGD2002 Helium & Hydrogen Detector

- Finds helium or hydrogen
- Displays concentrations
- 25 ppm helium minimum.
- Light weight telescoping ground probe

Sewerin Variotec VT460 Gas Detector

- Measures hydrogen of 0.1 ppm
- Wheeled probe, short probe, long probe
- Easy to read display in sunlight
- Simple operation

M18

- **12.1" VividHD™ LCD** nearly **twice as bright** as the leading brand.
- Quick change 18V Milwaukee style battery port
- **8x Digital zoom & pan**
- **1-touch USB recording** & playback
- Counter with 6 screen positions
- 512 hz sonde, titles, voice recording
- Easy operation
- Adjustable camera brightness
- Cool running camera lights for long life
- Reels: Hathorn, Ridgid (not TiltSense™), Pearpoint, Ratech, General Wire, G-Series, Gatorcam, G4
- **WiFi** to mobile devices (optional)
- Weather resistant M10 model available
- Made in North America

HATHORN

Hathorn Reels, Pushrods and Cameras

Size	Drum Dia.	Height	Drum Width	Rod Diameter	Rod Length	Cameras	Self Leveling Available	Wi-Fi Available
Micron	11 3/4"	15	3 5/8"	1/4"	100'	7/8", 1"	No	Yes
Mini	16.5	24	5	3/8"	100', 200'	1", 1.23", 1.35"	Yes	Yes
Mid	18	24	6.5	0.4", 1/2"	200'	1.23", 1.43", 1.68"	Yes	Yes
Large	25.5	33	6	1/2"	200', 300', 400'	1.43", 1.68"	Yes	Yes
Extra	29 3/8"	33	6 3/8"	1/2", 5/8"	500'	1.43", 1.68"	Yes	No

Hathorn Reels

- North American steel
- Precision laser distance counter
- Metal controller mounting bracket
- Sealed pushrod connection
- 5 sizes: 100', 200', 300', 400', 500'

WiFi Reels

- Save by using a Apple or Android mobile device to display and record with up to 4 users at once
- Audio voice recording
- Send files to text, Email, cloud.
- 18V Milwaukee battery port
- No controller mounting bracket

Hathorn Accessories

- Reel to controller cables
- Sondes
- Pushrod re-termination kits
- Camera head skids
- Locators
- Reel covers

Camera Heads

7/8" 1.23" 1.43" 1.68"

M7

- 18V Milwaukee battery
- USB recording
- 512 hz sonde with switch
- On-screen counter and text
- 3/8" or 0.4" or 1/2" x 200' pushrod
- Self-leveling camera available
- 7.4" display mounted on reel
- Reel brake, Wi-Fi available

M2

- 512 hz sonde with switch
- Reel mounted 7" display
- 1/2" x 100' pushrod
- 1.43" or 1.68" camera
- Optional self leveling cameras
- 18V Milwaukee battery
- Wi-Fi available

Pearpoint P540 Push Cameras

PEARPOINT

- **Rugged controller withstands water spray**
- Records on **128GB non-mechanical SSD for fast startup and** hours recording & 3 USB memory card ports
- **Wi-Fi** live video to mobile devices, share via wireless phone hotspot, Email reports, ...
- 1-touch video and photo recording
- Intuitive dedicated buttons and complete help built-in
- 10" HD bright and clear 1280x800 TFT display
- **Roller guides** prevent frame and pushrod wear
- **Digital zoom, pan,** rotation
- **Adjustable focus**
- 7.5 hour Li-ion battery with vehicle and wall chargers, instant charge status display
- Coiled reel to controller cord stays off the ground to prevent tripping and cord damage
- Time, date, titles and distance counter with calibration
- **500' extra stiff** pushrod for longer distances and lower price than crawler cameras
- 512 hz sonde for accurate position and depth location
- Cameras: 1", 1.23" self leveling focus, 2" self leveling focus
- Pushrods available: 100', 115', 200', 400', 500' lengths
- Reporting software to professionally organize and document
- Sapphire camera windows

Pearpoint Camera Heads

1"   1.23"   2"

500'   400'   200'   115'   100', 200'

Mainline Cameras: Pearpoint P550

PEARPOINT

- Pan & tilt crawler cameras for 6"-8", 6"-15", 8"-18", 8"-36" pipe inspection
- <u>Cameras</u>: Pan & tilt **10x optical zoom**, pan & tilt, fixed
- <u>Elevators</u>: powered, manual, fixed
- <u>Reels</u>: Powered Smart reel controls crawler and reel together to **prevent cable tangling** and require **less operators**, manual reel with lower cost
- <u>Laser Profiling</u>: Inspects deformations, internal diameter and flow capacity
- <u>Camera Controls</u>: Game pad, pendant control, joystick
- <u>P550 controls both mainline and push cameras</u>

Manhole Inspection Camera: Cues QZ3

- **360x Zoom** = **30x optical** + 12x digital, 63.7—2.3 viewing angle, 1/2.8 CMOS
- Full HD, 1920 x 1080 image
- 4 hour minimum Li-ion battery
- Simple and lightweight with 24' or 34' **carbon fiber telescopic pole**
- Quick inspections and surveys of manholes, pipelines, tanks, wetwells, treatment plants
- One person operation with no confined space entry
- 4 sets of LED's designed for manholes, short, medium, long pipes

RJM
800-620-4773

Wohler & Ratech Cameras

Wohler 200 250 350 Pipe Cameras

WÖHLER

- **Pan & tilt 1 1/2" and** / or 1" fixed camera
- **Top and bottom of the pipe** are indicated on screen
- **Angle of slope displayed**
- SD card recording (except VIS-200)
- 7" pivoting & detachable super bright LCD with 6.5 feet cable
- Distance counter, RCA video output,
- Locating sonde: **512 hz**, 8.9 Khz, 9.2 Khz
- Home button returns pan & tilt camera to straight forward
- Simple operation
- Compact case: 6.9" x 17" x 20", 18 lbs.
- 100 feet push rod cable
- Quick change rechargeable 1.5 hour batteries

Wohler 700 with Pan & Tilt Camera

WÖHLER

- **HD video 1280 x 720**
- **Pan & tilt camera**, 1.5" dia. with home key
- **Live video to smart devices**
- **SD and USB** recording of video and photos
- **Focus** with touch screen or joystick
- Compact case is only 7" x 18" x 20", 22 lbs
- Locating sonde with **512 hz**, 8.9 Khz, 9.2 Khz frequencies
- On screen text, voice recording, distance, camera angle & position
- Removable sunshade
- 4 hour Li-ion battery
- 2" to 8" pipes, 100 ft pushrod

Elite SD

Ratech

- 10.4" LCD
- SD card
- Lightweight, controller only 10 lbs.
- **Gel filled pushrod**
- Distance counter, date, time, titles, voice recording
- 512 hz locating sonde
- **Camera test port**
- Locally serviced
- Jetcam, crawler for 6-8" pipes, pan & tilt push camera or push camera, extra stiff pushrod, internal battery, USB recording, WiFi, USB recording
- Self leveling or non-self leveling 1 3/8" color camera for 3" - 8" pipes
- 3/4" color camera: 1.5" - 4" pipes
- 100 to **500'** pushrods

Pan & Tilt Push Camera   **Jetcam**   **Torpedo**   **Mainlines**

Opticam   Value priced

- 10.4" LCD display
- 1-touch record USB recording
- Rugged case
- 1.3" self leveling color camera, 480 x 720 resolution: 3" - 12" pipes
- 24-48 hour camera head service
- **Made in USA**
- 200', 300', 400' pushrod
- 10" diameter wheels, 512 hz sonde

INSIGHT VISION

Universal Roller Skid

- Adjustable for 6" - 18" pipes
- 3 LED lights boost lighting
- Fits 1.9" or 2.5" max. dia. cameras
- Centers for better view
- Pushes farther

Aluminum Skid

- **Custom** sizes available
- Lightweight, durable
- Spacers for 6", 8", 10" pipes

Drain Train

- Pushes farther
- 3 skids guide better around 3" P-traps and 90 degree bends
- See better centered and above the water

Trap Skid

- 2 skids guide around 3" P-traps and 90 degree bends
- Made in USA
- Lifetime warranty
- Up to 1.5" diameter

HDPE Pipe Fusion Machines

RITMO AMERICA

- 15 Models for **1" to 63" Pipes**
- Electro-fusion machines
- Socket fusion
- Scrapers, bevelers, pipe Cutters
- Hot Plates
- Pipe alignment clamps
- Internal pipe de-beaders

Odor Control Biofilters

- Lowest overall cost
- 6 - 8 year media life
- No chemical costs
- No carbon replacements costs
- All natural & regenerating
- Low maintenance
- No corrosion: all HDPE or stainless steel

biotes Biofilter Systems

Vents   **Manholes**   **Lift Station**   **Wastewater Plants**

Cables, Ends, Blades & Accessories

**Please see www.rjmcompany.com for part numbers and prices.**

Gorlitz Cables: Heat treated high tensile wire for durable and flexible cable.

Cable Sizes: 1/4", 9/32", 3/8", 13/32, 1/2", 5/8",11/16", 3/4"

GORLITZ

Hollow Core: Hollow cables are most common, lighter and lower cost than innercore.

Innercore: The outter core tightens on the innercore when under torque stiffening the cable.

Drop Heads guides cleaning tip around bends. Permanently crimped or removable.

Bulbhead cables provide flexible open cable and a blade connector for small cables. **CB & ICB**

Cable Ends: 1/4" - 3/8" bulbhead or drop heads; 3/8"- 1/2" ends optional; 5/8", 11/16", 3/4" cables include ends.

| Male End | Slip Joint End | Slip Joint Chuck | Split Pin | Splices |

| Cone Chuck | Blade Holder | Finger Leader | Combination Retriever | Hook Retriever |

Blades:

- 1/2" wide: 3/8—1/2" cable: K01—K05A blades with 1/4" hole, wide
- 3/4" wide: 5/8" 11/16", 3/4" cable: K06—K25, 3/8" hole
- 1" wide: K26—K29

Cable Machine Accessories:

Gorlitz GO3500 & GO4000: 1 1/2" - 10"

- Both include **18 hp, 688cc Honda engine**

2500 psi: 3/4", 1"

Foot Pedal   Hose Dolly   Hose Caddy

Jetter Nozzles

- 1/8", 1/4", 3/8", 1/2"
- Rear jets only or front and rear jets

Leader   Rotating   Laser   Corner   Ball   Drop Head

Power Mole PD-33M Pipe Bursting Machine

- New compact design, only 20" x 20" footprint
- 11" long cone / pulling eye pulls farther into the pit
- Powered with most excavators or portable power pack
- Pulls 30 tons to burst 3/4" to 6" pipes
- Replaceable cutting blades.
- Hose dolly and cable reel included
- Choose 0, 1, 3 blades
- Quick disassembly
- 6 fpm

Directional Boring & Pipe Bursting

- Trenchless pipe & conduit installation
- Accurately track and steer
- Uses rods and / or cable
- Simple and durable
- Low cost

PD4
- 1/2" to 4" pipes, 9 fpm
- 37,714 pounds force

PD6
- 1/2" to 8" pipes, 7 fpm
- 84,822 lbs force

PD7
- 1/2" - 12" pipes
- 112,00 lbs force

Underground Magnetics Directional Boring Locator

- Accurately track position, depth, direction, rotation ...
- "Bore To" mode for fast, easy and accurate boring
- **Depths up to 360 feet**
- **3000 feet** distance
- 10 sonde choices
- Economical prices
- Up to 10 frequencies
- Switch between "Bore To" and "Locate" modes with single button
- Weatherproof withstands water jets, IP68
- On screen depth forecast
- 120 hour transmitter back up power
- Downhole frequency and power switch
- Real time drilling management to view bore data, charts, collect GPS data, view bore data remotely, create and share PDF reports, precise mapping

Thank for viewing our catalog. Since 2002 RJM Equipment Sales, Inc. provides the best service, support, sales and training at purchase and for happy customers forever. We have factory trained technicians for camera and other service. Our new website: www.rjmutilityequipment.com offers online purchasing. (not RJM Precision)
