Shark Gas Engine Jetters: Four high-power models

Shark offers four heavy-duty gas engine sewer drain cleaning machines jetter models that provide the power and durability for large commercial drain cleaning jobs. Ranging from 4 to 8 GPM flow rate at 3000 PSI, Shark's gas jetters feature reliable Honda or Vanguard engines with low oil shutoff to protect and extend the engine life. All models have a triplex plunger pump with Pulse Technology on demand to push through tough drain clogs and lead the hose through tight bends.

The SJDDG-3011 is the lightest of Shark's gas engine jetters, but still provides the power of 4GPM at 3000 PSI. The pneumatic tires and handruck design allow portability and easy maneuverability.

Shark's bigger gas engine models feature easy to maneuver roll cage designs and range from 5.5 to 8 GPM at 3000 PSI. All models come with a 300' hose reel, metal tool box, and safety features including a thermal relief valve, back flow check valve and inlet filter.
