Lightweight

*"Totally digital,
completely
compact. A
Panasonic[®] DVD
recorder & Hard
Drive integrated
into the system."*

Ratech's **Elite-D** DVD-R/HD[®] features a 15" Hi-Res Flat LCD screen, a Panasonic[®] DVD recorder AND an 80 gigabyte fast hard drive giving you one of the most advanced inspection systems available today. Take full advantage of the highest quality video DVD offers with the storage capability of a hard disk in one unit.

The Panasonic[®] DVD recorder is accessible from the front of the unit making it convenient to record your inspections directly onto a DVD-R disk or the internal hard drive. You can record or "burn" video on the fly as you are performing your inspec-

tion just like video tape, but with much more capacity.

The control unit is designed with all operating functions top mounted for ease of use and monitoring. Included on the panel is a camera test terminal for easy analysis of problems that may occur. (It allows the camera to be tested without the cable reel)

An on-screen display overlay system is included providing on-screen count, time, date and eight (8) pages of memory for listing problems and displaying of company information.

COLOR INSPECTION CAMERA
