

Industrial Vacuum Systems / Valve Operators

PV-100+ "Power-Vac" Product Information Sheet

Custom 5'x8' utility trailer with "V"tail cutout shown below

PV-100 Skid Mount (above) & Trailer Mount (right)

Features of the Pacific Tek PV-100+ include:

- 20 HP Gas engine with electric start belt driving a 325 CFM Positive Displ. Blower.
- 100 Gallon Angled Debris tank with full dia. "zero-leak" 6-lug hatch.
- Tank design distributes load over entire unit length and empties easier.
- Easy access remote filter housing with 1-piece 10 micron washable filter element.
- 2-part Epoxy coated tank (inside & out) and skid assembly.
- Oversized acoustical / baffled blower silencer for quiet running.
- Full 3" dia. pick-up hose and tube for maximum performance.
- Water washdown system built into debris tank.
- Easily mounts on either truck bed or trailer.
- Non-conductive 3" pick-up tube with swivel handles furnished.

Contact Pacific Tek for detailed bid specification or for other optional accessories that can be supplied as part of a package tailored to suit your equipment needs.
