

POW-R Mole Portable Power Stinger

Technical Specifications

Height	28"
Length	45"
Width	20 1/4"
Weight	415 lbs. (wet)
Working Pressure	3000 psi.
Flow Rate	20 gpm

Technical Notes

- Pressure compensating piston pump
- 20 HP, two cylinder industrial/commercial Honda engine with electric start
- 10 micron hydraulic filtration with visual change indicator filter
- 10 gallon frame reservoir protects pump and cools hydraulic oil
- Pressure bypass valve for easy starting
- Single station controls for ease of use

Available Options

- System pressure gauge
- Amp meter
- Hour meter
- Oil cooler
