

Q Series Portable Hot Water Sewer and Drain Jetters

3-5 gallons per minute

The Cam Spray Q Series Portable Hot Water Sewer and Drain Jetter is designed for maximum power in a portable package with the addition of Hot Water for those times when you need heat to help cut through grease or frozen lines. The Q Series Jetters are equipped with a 12 Volt DC burner system that uses kerosene or diesel fuel to heat water to 190 degrees Fahrenheit with an adjustable thermostat and safety pressure relief valve.

The four wheel design offers ultimate portability with 13" pneumatic tires for stability over rough terrain. This jetter is available in flow ranges from 3 gallons per minute up to 5 gpm and pressures up to 4000 psi. The heavy tube frame protects your jetter from damage. The removable swivel reel holds 200' of 3/8" jet hose. The 3/8" jet hose, and 1/8" trap hose included are flexible to navigate tight lines. All Gas powered equipment is designed for outdoor use only. Position the machine outdoors and bring the hose indoors and you are just minutes away from a free flowing drain. Turn on the pulse feature to navigate those tight bends and traps quickly. Want to use this machine as a power washer? The Q Series machines come standard with a wash down gun and 4 nozzles to use as a pressure washer. Battery not included on electric start models.

Standard features include: Triplex ceramic plunger pump with stainless steel valves, forged brass manifold, power pulse valve and 80 mesh water filter, 8 gallon burner fuel tank, 200' x 3/8" hose on a manual reel, 4 nozzle set with tip cleaner and storage box, 75' x 1/8" trap hose and nozzle, powder coated tube frame cart, Tool Box with gloves, back-flow preventer and safety goggles.

Optional equipment includes a Rotating Nozzle for pipe finishing and the DS200 reel cart with 200' x 3/8" hose for remote jetting.
