

Gorlitz GO 68 plumber snake stands out due to its power, straight forward construction and simplicity in operation. This plumber snake opens tough stoppages and satisfies the most experienced operator.

The Gorlitz plumber snake GO 68 frame is durable and simply constructed. Powered by a 1/2 HP ball bearing reversible geared motor, this model operates almost noiselessly. Extra additions include skid bars for frame protection, large wheels, tow ring, front and rear handles for added ease of transportation, loading or unloading of machine. This model cuts through roots, grease, rags and other foreign objects in sewer lines from 3" to 8" in diameter over 300 feet long. Model GO 68 is available with either an open steel reel or enclosed polyethylene drum.
