

Sewer Jetter GO 1500

This electric sewer jetter is the alternative choice to our gaspowered models. Simply built, this unit will perform well with limited maintenance and care.

Gorlitz Model GO1500 sewer drain jetter was designed with portability in mind. The frame includes a retractable handle, which locks in the up and down position for easy transportation or storage. Equipped with a custom built dual capacitor, 2 HP motor. (19.8 amps at full load. The duplex ceramic plunger pump equipped with pulsation will generate over 1500 psi at 2.1 GPM. This jetter includes two hose sizes on a removable split reel, giving the operator the capability to clear sludge, grease, residues and open frozen lines from 1 1/2" to 4" in diameter.
