Mini
Peek

*"A quality affordable
entry level system."*

*"An affordable entry
level system that is
compact, lightweight
and durable."*

Ratech's MINI PEEK™ small pipe inspection system offers a 5-inch Black and White monitor, a 1.2-inch Black and White camera, 100' of durable cable and a 512 HZ sonde transmitter all housed in a convenient, light weight, and highly portable reel enclosure.

At the core of the system is a 1.2" Black and White camera. The camera features a high sensitivity low lux camera housed in a shock resistant and water tight stainless steel body with a flexible gooseneck assembly. Built into the camera, for convenience, is a 512 HZ sonde transmitter which allows it to be located with most receivers.

Complementing the camera is 100 feet of highly durable yet flexible cabling which is housed on a sturdy lightweight reel.

At the top of the reel is the 5" Black and White monitor that produces a crisp and clear picture which allows the operator to **SEE EVERYTHING™**.

This all-in-one pipe assessment solution is the perfect tool for those just getting into pipe inspection or long time veterans. The MINI PEEK™ highly cost effective system is aggressively priced without sacrificing quality.

INSPECTION CAMERAS

- Compact camera design - B&W (1.2"D x 1.7"L)
- Cameras inspect from 2 - 10 inch pipes
- 512Hz In-Line transmitter
- Shock and water resistant optimized rugged camera module
