

Decals

Rhino All-Weather Decals™

Rhino All-Weather Decals are constructed of the finest materials used in the industry. Rhino's decals are engineered to deliver superior readability, a minimum of 10 years longevity, and permanent adhesion.

Substrates

Vinyls used in Rhino decals have a minimum 10 year life expectancy.

Adhesives

Rhino uses aggressive, high-tack adhesives that permanently adhere to each surface.

Inks

Using the strongest UV stabilizers in the industry, Rhino inks will not significantly fade for 10 years.

Federal Law Warning helps deter vandals.

White background sharply contrasts with the black warning message to ensure maximum visibility.

International "No Dig" symbol reaches non-English speaking excavators.

Warning in yellow (APWA) color for gas & petroleum meets Federal Office of Pipeline Safety specifications.

Contrasting colors highlight warning message.

Black 1" high 1/4" stroke letters meet Federal Office of Pipeline Safety specifications.

811 logo if you belong to a One-Call center.

Ample space for company name and 24 hour emergency phone number.

Add a QR code to provide additional safety information to excavators

Using a flag decal on your posts can reduce vandalism

up to 50%.

Rhino Custom Decals

Rhino's in-house art department can develop an effective decal for any application. The most important part of a marker post is the "Warning" message, and Rhino can help you develop the most effective decal for your marker.

Name Changes

From half-moons to patches, Rhino can make any shape or size decal you need to remark your lines.

Applications

All Rhino decals are applied to your posts at no additional charge. Rhino flame treats all surfaces prior to application and professionally installs the decals, ensuring permanent decal adhesion.

Custom Art
